# A Galaxy of Stars

# *A Galaxy of Stars*

Do you ever sit on a hill at night  
To watch the starscape shine?  
A galaxy of twinkling islands  
Decorates the sky.

Some stars burn bright in solo spots  
Like diamond dots on velvet.  
Some gather and gleam behind the scene-  
The sky's own tinsel blanket.

Alone and bold; in glittering groups;  
A thousand trillion clusters;  
The cosmos has all kinds of stars,  
Each adding to the luster.

Would a star wish to shine  
The way another glows?  
Could it be he doesn't see  
A sparkle of his own?

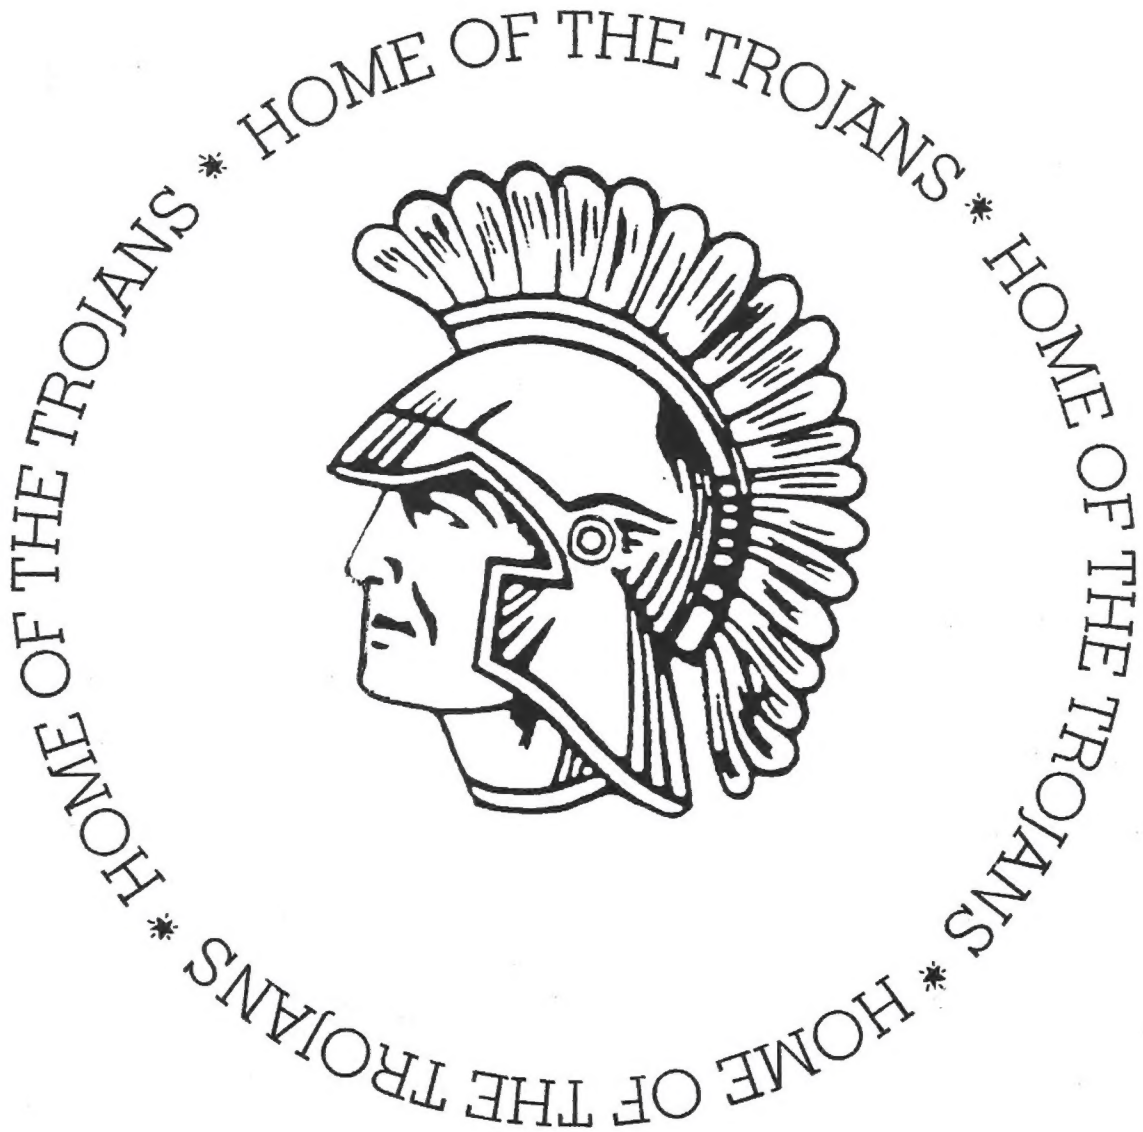

In the universe of galaxies  
Expanding throughout time,  
There are no stars who don't give light;  
There are lots of ways to shine.©
